### **Harvey Gulf Delivers 4th LNG Powered Vessel**

**New Orleans, LA** – Today, HARVEY GULF INTERNATIONAL MARINE announced that it has accepted delivery of its fourth LNG-powered Offshore Supply Vessel. The M/V HARVEY FREEDOM, built at Gulf Coast Shipyard Group in Gulfport, MS is 310' x 64' x 24.5', U.S. Flagged Subchapter I and L, SOLAS compliant and capable of carrying 253,000 USG of Fuel Oil,

18,000 Bbls of Liquid Mud, 1,600 Bbls of Methanol, 10,250ft<sup>3</sup> of Dry Cement and 78,000 USG of LNG fuel.

In addition to being powered by cleaner burning natural gas, the vessel is “*ENVIRO+*, *Green Passport*” certified by ABS, making her, and her sister ships, the most environmental friendly OSV’s in the Gulf of Mexico.

The HARVEY FREEDOM will be based out of Port Fourchon, LA and will immediately begin a five-year charter with a major oil and gas company.

Mr. Shane Guidry, Chairman and CEO of Harvey Gulf, commented “The delivery of the Harvey Freedom and commencement of her five-year charter shows Harvey Gulf’s continued commitment to the environment and the success of LNG power in our industry.”

HARVEY GULF INTERNATIONAL MARINE founded in 1955, is a privately owned and operated marine transportation company that specializes in providing, fast supply vessels, offshore supply and multi-purpose support vessels for deepwater operations.
